The Red Envelope Project

The Red Envelope Project is an effective initiative focused on enhancing safety and well-being in the event of an automobile accident. This project involves placing a red envelope in your vehicle that contains essential medical information and emergency contacts. By providing first responders with immediate access to this information, the project facilitates timely communication with your designated contacts and ensures you receive appropriate medical attention. The Red Envelope Project underscores the critical importance of preparedness, empowering individuals to take proactive steps in safeguarding their own safety.

Here's how to participate:

- **Visit Our Office:** Stop by to collect your complimentary red envelope and Emergency Contact Form.
- **Fill Out Your Information:** Complete the medical information form and emergency contact details provided. Be sure to include any pertinent medical conditions, allergies, medications, and instructions for healthcare providers.
- **Store It in Your Vehicle:** Place the red envelope in a visible and easily accessible spot in your car, such as the glove compartment.
